

Senator Miner, Senator Kennedy, and honorable Committee Members:

I wish to express my support for S.B. 832, with some reservations.

I believe, for the sake of bears and bobcats as well as the naive public, that feeding predatory wildlife should be illegal. But I want to be sure that baiting and luring by hunters and trappers remains legal, as it is necessary for control of wildlife populations.

Thank you,

Aili McKeen
